Enviro-Save
Vancouver, B. C.

Dear Sirs:

Re: Enviro-Save
Handpiece Protectant

We have been using this product in my Dental Office for the Past 5 - 6 years on our Kavo High Speed Handpieces.

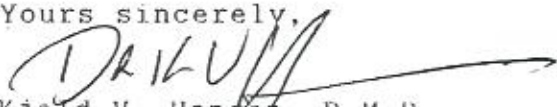

The life span of the turbines on the handpieces seem to last 30 - 40% longer and also run smoother.

I must be honest and tell you that we have not done any control tests with this product but we continue to use the product as we can see what it has done in the past.

The cost savings would be 30 - 40% of the cost of the turbines so I believe it is a very worthwhile product to use and will continue with the product in my dental office.

I trust this information will be beneficial to you.

Yours sincerely,

Kjeld V. Hansen, D.M.D.
